Whitefish Lake Institute Seeks Stewardship Award Nominations

The Whitefish Lake Institute is looking to recognize individuals, businesses or organizations that took extraordinary measures in 2010 to protect the water resources of the Whitefish area for the benefit of all. Eligible nominees include those that have implemented on-the-ground projects that improve water quality or educational efforts that help foster continued stewardship of aquatic resources.

To nominate an individual, business, or group, go to the WLI homepage www.whitefishlake.org and click on the Stewardship Award icon. This year, the nomination deadline has been extended to January 15th, 2011. Please help us in recognizing those that help keep our water clean.
