Cassie Roberts

Program Limnologist

cassie@whitefishlake.org

Prior to WLI Cassie got her Masters in Biology at Rensselaer Polytechnic Institute in Troy, NY. There she worked with the New York City Department of Environmental Protection to help ensure the safety of drinking water in their Catskill Reservoirs. She also participated in long term monitoring programs on three lakes located in the Pennsylvania Poconos. Cassie has worked in Grand Junction Colorado doing riparian vegetation monitoring along the Colorado, Dolores, and Gunnison rivers. Prior to that she worked on a roving trail crew throughout Arizona and Utah for the Arizona conservation corps. Cassie also attended Elizabethtown College in Eastern Pennsylvania where she played field hockey and dual majored in Environmental Science and French. Cassie was born and raised in Maine where her lifelong love of lakes began. She spent many summers swimming and exploring Baxter State Park in Northern Maine, where she fostered a love for the outdoors. Cassie is looking forward to researching and protecting Whitefish Lake and getting to know this exciting community. In her free time, Cassie enjoys hiking, swimming, and running.
